

PROFINET Interface Module 2070

PROFINET interface module for interfacing up to eight digital non-ATEX load cells via PROFINET fieldbus interface

Type: 2070
Interface: PROFINET

- Made in Denmark
- PROFINET communication module for interfacing Eilersen digital load cells to PCs, PLCs and other equipment.
- The module can be used for up to 8 digital load cells and transmits the weight and status for each individual load cell.
- The module offers plug-and-play installation with Eilersen pre-calibrated digital load cells.
- The module is supplied with an GSD XML file for easy installation.
- Application software can be made by request.

Important notice:

Please ensure that you choose the GSD XML file and manual from this page, which corresponds to the program name listed on the label on your PROFINET module.

If the files listed here do not correspond to your module, please contact us with information on the serial no of your module so we can send you the correct documentation.
