

OEM Weighing Module 4840OEM

OEM weighing module for interfacing up to 8 digital load cells to PLCs, PCs etc. The module offers serial RS485, Modbus TCP/IP and EtherNet IP interfaces. This weighing module is developed for OEM use and can be equipped with customized protocols. The module communicates weight, status and diagnostics for each individual load cell connected to the weighing module.

Type: 4840OEM

Interface: RS485, Pending: EtherNet TCP/IP, EtherNet IP, Modbus TCP/IP, PROFINET

Special Features

Made in Denmark

Interfaces: RS485, Pending: Ethernet TCP/IP,

EtherNet IP, Modbus TCP/IP, PROFINET

Plug-and-play installation with pre-calibrated digital
load cells

Weighing module for up to 8 digital load cells

Application software can be made upon request

Connectors for up to 8 digital load cells and power
supply 24Vdc, min. 3A

Dimensions (mm)

Specifications

Parameter	Unit	Data
Input		Up to 8 digital load cells
Output		RS485 Pending: Ethernet TCP/IP, EtherNet IP Modbus TCP/IP, PROFINET
Power Supply	Vdc	24Vdc \pm 5%, min. 3A
Operating temperature range	°C	5 to 50
Weight	kg	0.5
Housing		Anodized Aluminium
Mounting		DIN rail

Options

Weighing module for up to 8 digital load cells

Prepared for panel mounting and DIN rail mounting

Mounted in aluminum housing

Customized application software

OEM version
